Target version:	4.1.0		
Resolution:			

Description

Wiki formatting help contains a lot of information but it does not have a TOC at the beginning of the page. So, it is a bit difficult to find the information what you want.

Adding TOC can solve the problem. The attached patch is just a demo which adds TOC only to English Textile Help. I will make a complete patch after getting feedbacks.

Wiki formatting

- Links
  - Redmine links
  - External links
- Text formatting
  - Font style
  - Inline images
  - Headings
  - Paragraphs
  - Blockquotes
  - Table of content
  - Horizontal Rule
- Macros
- Code highlighting

Links

Redmine links

Redmine allows hyperlinking between resources (issues, changesets, wiki pages...) from anywhere wiki formatting is used.

- Link to an issue: **#124** (displays ~~#124~~, link is striked-through if the issue is closed)
- Link to an issue including tracker name and subject: **##124** (displays Bug #124: bulk edit doesn't change the category or fixed version properties)
- Link to an issue note: **#124-6**, or **#124#note-6**
- Link to an issue note within the same issue: **#note-6**
