Category:	REST API	Estimated time:	0.00 hour
Target version:		Affected version:	3.4.6
Resolution:	Invalid		

Description

Hello,
I want to create a new user in redmine via REST API Users and add him into a project and role.
How to do that with the REST API Users ? http://www.redmine.org/projects/redmine/wiki/Rest_Users
DO i have to use memberships REST API ? => http://www.redmine.org/projects/redmine/wiki/Rest_Memberships
How to do that please ?

detail:
Find Attached the screen shot of My POST request with POSTMAN.
I have generated a php page with cURL and the creation is working fine but I can't add the project and roles (see attachments 5.png)
I use the API key for the the authentification (without login and passowrd visible)

The GET request (GET /users.xml) with POSTMAN, return this information (containing Projects and roles)
<http://witsbue1000dit.eur.gad.schneider-electric.com:3000/redmine/users/2369.xml?include=memberships,groups>

```
<?xml version="1.0" encoding="UTF-8"?>
<user>
<id>2369</id>
<login>SESA481984</login>
<firstname>Emmanuel</firstname>
<lastname>PRIZZI</lastname>
