

Redmine - Defect #32168

Allow issue id with "#" prefix for the value of issue ids filter

2019-09-29 03:27 - Go MAEDA

Status:	New	Start date:													
Priority:	Normal	Due date:													
Assignee:		% Done:	0%												
Category:	Issues filter	Estimated time:	0.00 hour												
Target version:	Candidate for next major release	Affected version:													
Resolution:															
Description															
I found an inconsistent behavior regarding issues filter.															
"Parent task" and "Subtasks" filter accept issue ids with "#" prefix (e.g. !#123), however, "Issues" filter does not. I think "Issues" filter should also behave the same.															
<table border="1"><thead><tr><th>Filter value</th><th>"Parent task" / "Subtasks" filter</th><th>"Issue" filter</th></tr></thead><tbody><tr><td>10,11</td><td>OK</td><td>OK</td></tr><tr><td>#10,#11</td><td>OK</td><td>"Issue is invalid" error</td></tr><tr><td>10, 11</td><td>OK</td><td>"Issue is invalid" error</td></tr></tbody></table>				Filter value	"Parent task" / "Subtasks" filter	"Issue" filter	10,11	OK	OK	#10,#11	OK	"Issue is invalid" error	10, 11	OK	"Issue is invalid" error
Filter value	"Parent task" / "Subtasks" filter	"Issue" filter													
10,11	OK	OK													
#10,#11	OK	"Issue is invalid" error													
10, 11	OK	"Issue is invalid" error
