<b>Category:</b> Wiki	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	<b>Affected version:</b>
<b>Resolution:</b>	
<b>Description</b>	
<p>I'm trying to export my whole wiki via the Redmine API, but the export whole wiki function as seen in the bottom right-hand corner when sorting by index is not working.</p> <p>It is possible to export single pages via the API, but not the whole wiki, but I'd be really great to be able to backup the wiki this way in an automated fashion.</p>
