

Redmine - Feature #32278

Display Global Roadmap without any tracker

2019-10-15 11:12 - Brice Beamesnil

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Roadmap	Estimated time: 0.00 hour
Target version:	
Resolution:	
Description The idea : - Display Roadmap page without any selected tracker. It's impossible : if we deselect all trackers and "Apply" : they are automatically reselected all. This view is usefull for CTO for example, it's just to see all projets advancement without any details. And better, if we can make filter on trakcers (with ordering) and save result like Issues page... Thank you for your great work. best regards

In this way...

If we can also just display Versions with a due date.

Because Versions are used to make : backlog or sandbox.
