

Redmine - Defect #32305

Use of notextile tag disables Redmine revision links

2019-10-20 07:29 - Mischa The Evil

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			

**Description**

As observed [yet] only on redmine.org (see [#29482#note-90](#) and [#29482#note-91](#)), comments (in this case issue notes) having the following structure does not render the revision as a link:

```
<notextile>@</notextile>User One: Some text before @some code@ before _some italic text_ before a revision link like rDDDD.
```

while comments where this line is quoted like follows does render the revision link as expected:

User One wrote:

```
> <notextile>@</notextile>User One: Some text before @some code@ before _some italic text_ before a revision link like rDDDD.
```

This should be triaged on current Redmine versions.
