Category:	Translations		**Estimated time:**	0.00 hour
Target version:	Candidate for next major release			

Description

Hello,

Here's an attempt to update and complete sq translation of Redmine.
I'd appreciate if someone can run the tests on them, as I failed to do so myself.

TIA,
Besnik

Associated revisions

Revision 21350 - 2022-01-06 14:35 - Go MAEDA

Albanian translation update (#32405).

Translated by Besnik Bleta.

Revision 21351 - 2022-01-07 01:57 - Go MAEDA

Fix test failure due to duplicate document category name in Albanian translation caused by r21350 (#32405).

Hello,

I couldn't success in testing using "rake test" even a couple of hours trying to debug and/or update ruby with the help from people from #ruby and #redmine channels on freenode. But I've tested the translations through manipulating a local Redmine Bitnami instance and it works fine.

So I really would appreciate if someone could test them for me and help updating sq translation.

Here you are the updated translation files.

Here you are the updated translation files for sq locale

I have not managed to run the tests.

#4 - 2022-01-06 14:38 - Go MAEDA

- Assignee set to Go MAEDA

I have committed config/locales/sq.yml in [r21350](). Thank you.

I am going to commit the other remaining files in the near future.

#5 - 2025-03-16 21:25 - Besnik Bleta

- File sq.yml added

I'm attaching an update for sq translation for trunk.

I'd also like to draw attention to the fact that after 3 years this thread seems to have not made any progress about the other files I submitted. TIA!
