

Redmine - Defect #32420

Issue redirect after login not working

2019-11-05 23:15 - James Kurczodyna

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:	James Kurczodyna	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description			
<p>I am seeing issues with redirects after login. When I go to an issue URL while logged out I expect to be redirected to the issue after logging in. I'm seeing this on.</p>			
Steps to reproduce:			
<ul style="list-style-type: none">• log out• go to /issues/12345<ul style="list-style-type: none">◦ I get redirected to /login?back_url=http%253A%252F%252Fissues.afinedevelopment.com%252Fissues%252F12345• log in<ul style="list-style-type: none">◦ I get redirected to /my/page◦ expecting to be /issues/12345			
MacOS / Chrome 77.0.3865.90			
Environment:			
Redmine version	4.0.1.stable		
Ruby version	2.5.3-p105 (2018-10-18) [x86_64-linux]		
Rails version	5.2.2		
Environment	production		
Database adapter	Mysql2		
Mailer queue	ActiveJob::QueueAdapters::AsyncAdapter		
Mailer delivery	smtp		
SCM:			
Subversion	1.6.17		
Git	1.7.9.5

Thanks, James			

History

#1 - 2019-11-06 22:39 - Marius BĂLTEANU

- Status changed from New to Needs feedback

- Assignee set to James Kurczodyna

Please try without any plugin installed.

#2 - 2019-11-12 18:42 - James Kurczodyna

We've disabled all plugins in our dev environment and are still experiencing the issue.

#3 - 2019-11-18 20:00 - Holger Just

Please make sure that you have configured the correct hostname in **Administration -> Settings -> Host name and path**. For the back_url validation to work, you need to enter the external hostname here, i.e. issues.afinedevelopment.com. Also make sure you have configured the correct scheme there to match your external protocol (i.e. http vs. https).

#4 - 2020-01-03 20:18 - James Kurczodyna

Both of those settings were already set correctly.

#5 - 2020-01-04 09:48 - Go MAEDA

I sometimes experience the same problem but I have not found conditions to reproduce without fail.

#6 - 2020-09-30 13:48 - Marco Reuchlin

Same problem here:

```
Environment:
Redmine version      4.1.1.stable
Ruby version         2.5.5-p157 (2019-03-15) [x86_64-linux-gnu]
Rails version        5.2.4.2
Environment          production
Database adapter     Mysql2
Mailer queue         ActiveRecord::QueueAdapters::AsyncAdapter
Mailer delivery      smtp
SCM:
Git                  2.20.1
Filesystem
Xitolite             2.20.1
Redmine plugins:
additional           2.0.24
bestest_timer        1.2.0
hide_journal_details 0.0.2
redmine_agile        1.5.4
redmine_bootstrap_kit 0.2-devel
redmine_checklists   3.1.18
redmine_ckeditor     1.2.3

```

```
log out
go to /issues/12345
I get redirected
log in
I get redirected to /my/page, but expected /issues/12345
```

We also removed every plugin and customization, don't work

#7 - 2020-10-27 16:12 - Marco Reuchlin

???

#8 - 2022-12-13 14:39 - Dimitar (RedmineUP)

Dear **James**,

This is Dimitar from the **RedmineUP** Support Team.

I see that you have some of our plugins on your list:

```
redmine_agile 1.4.8
redmine_checklists 3.1.14
```

So, could you please contact our support team at support@redmineup.com? And our support engineers will help you investigate the

situation.

We look forward to hearing from you.

Best Regards,
Dimitar from the RedmineUP Support Team
