Description

Hi All,

i login redmine as administrator, then go to admininstraiion/projects --> select status(closed) --> then click delete. I got this error message:

Internal error

An error occurred on the page you were trying to access.

If you continue to experience problems please contact your Redmine administrator for assistance.

If you are the Redmine administrator, check your log files for details about the error.

I have no idea how to fix this issue, please give me some hint. I appreciate your help.

redmine.easy_settings table is not part of the Redmine core, please try without any plugin.

I found a similar issue in this page https://github.com/danmunn/redmine_dmsf/issues/856.
It seems occurred by dmsf, I will try to remove all plugin first and next to follow the solution in that page.

Closing this issue because it seems to be caused by a third-party plugin.
