Description

I am following the instructions here:
http://www.redmine.org/projects/redmine/wiki/redmineupgrade

```
bundle install --without development test
```

finishes with message

```
Bundle complete! 28 Gemfile dependencies, 59 gems now installed.
Gems in the groups development and test were not installed.
Use `bundle show [gemname]` to see where a bundled gem is installed.
```

Running

```
bundle exec rake generate_secret_token
```

crashes with

```
/usr/lib/ruby/2.5.0/rubygems/resolver.rb:231:in `search_for': Unable to resolve dependency: user r
equested 'did_you_mean (= 1.2.0)' (Gem::UnsatisfiableDependencyError)
```

Running

```
rake generate_secret_token
```

(without *bundle exec*)

however works and produces the file /config/initializers/secret_token.rb

Running

```
bundle exec rake db:migrate RAILS_ENV=production
```

crashes with:

```

I have
ruby 2.5.1p57 (2018-03-29 revision 63029) [x86_64-linux-gnu]
installed.

As a consequence, I am not able to finish the upgrade procedure.
