

## Redmine - Patch #32461

### Allow Redmine:MyPage to be overridden in plugins

2019-11-13 00:16 - Jérôme BATAILLE

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	My page	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
Hi,			
In the UserPreference model, Redmine:MyPage is required like this :			
<pre>require 'redmine/my_page'</pre>			
It will be very helpful to be able to override methods of this module , for that require_dependency is necessary, if not overrides are not taken in account.			
<pre>require_dependency 'redmine/my_page'</pre>			
This blocks a plugin I try to publish : <a href="http://www.redmine.org/issues/31224">http://www.redmine.org/issues/31224</a>			
Thanks a lot.

Hi, this small change is mainly necessary for development mode.
