<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b>	
<p>Maybe it can be done already and i just could read the docs, but it would be really nice to also set the progress of a ticket via commit message.</p> <p>We can change the status of a ticket and record the time</p> <p>E.G. a commit message like bugfix xxxyyy refs <a href="#">#234</a> @2h %70</p> <p>This would associate the commit with the ticket 234, add 2h of used time and sets the progress of the ticket to 70%</p>
