

## Redmine - Defect #32500

### Spent time report csv shows translation missing text if custom fields are involved

**Description**

To reproduce the error:

1. Create a spent time's custom field (list format) with two values. In this example it was named *Perfil*, with values *Perfil1* and *Perfil2*
2. Log some time, with different *Perfil* values.
3. Go to Spent Time > Report
4. Group by custom field *Perfil*

The report on the page looks fine, but if you export it using the CSV link it shows a translation missing: en.Perfil message at first column, first row:

`error.translation-missing.timelog.csv.png`

If you choose another language the message will change accordingly: `translation missing: es.Perfil`, `translation missing: gl.Perfil`, etc...

**My environment:**

```
Environment:
  Redmine version      4.0.5.stable
  Ruby version         2.5.7-p206 (2019-10-01) [x86_64-linux]
  Rails version        5.2.3
  Environment          production
  Database adapter     Mysql2
  Mailer queue         ActiveJob::QueueAdapters::AsyncAdapter
  Mailer delivery      smtp

SCM:
  Subversion           1.12.2
  Cvs                  1.12.13
  Git                  2.19.1

The patch also worked for us. Now it shows *Perfil* instead of *translation missing: en.Perfil*. CSV output is the same as html. Many thanks to Yuichi HARADA and Go MAEDA.

## #5 - 2019-12-06 01:28 - Go MAEDA

- Status changed from Confirmed to Closed

- Assignee set to Go MAEDA

- Resolution set to Fixed

Committed the fix. Thank you all for your contribution.
