

Redmine - Defect #32503

Project jump box options are not extracted correctly after searching

2019-11-22 06:10 - Mizuki ISHIKAWA

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Projects	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution: Fixed	

Description

Reproduction procedure:

- Step1. Check the options for Project jump box
- Step2. Search by entering keywords on https://redmine_url/search
- Step3. Check the options for Project jump box. You should see different options than when you checked in step1.

Cause:
Both the search keyword input field of the search page and the project jump box input field are elements with name q.

Project jumpbox options are narrowed down based on params[:q]. (http://www.redmine.org/projects/redmine/repository/entry/trunk/app/helpers/application_helper.rb#L475)

```
bookmarked = jump_box.bookmarked_projects(params[:q])
recents = jump_box.recently_used_projects(params[:q])
projects = projects - (recents + bookmarked)
```

The params[:q] received from the search keyword input field is mistaken for the params[:q] received from the project jump box input field, and the keyword(params[:q]) will narrow down the project jump box options.

Associated revisions

Revision 19325 - 2019-12-02 02:37 - Go MAEDA

Fix that bookmarked and recently used projects are unexpectedly filtered by a search keyword after full-text search (#31355, #32503).

Patch by Mizuki ISHIKAWA.

Revision 19326 - 2019-12-02 03:21 - Go MAEDA

Merged r19325 from trunk to 4.1-stable (#31355, #32503).

@@ -477,8 +477,9 @@ module ApplicationHelper
```

```
def render_projects_for_jump_box(projects, selected=nil)
  jump_box = Redmine::ProjectJumpBox.new User.current
-   bookmarked = jump_box.bookmarked_projects(params[:q])
-   recents = jump_box.recently_used_projects(params[:q])
+   query = params[:q] if request.format.js?
+   bookmarked = jump_box.bookmarked_projects(query)
+   recents = jump_box.recently_used_projects(query)
  projects = projects - (recents + bookmarked)
  projects_label = (bookmarked.any? || recents.any?) ? :label_optgroup_others : :label_project_plural
  jump = params[:jump].presence || current_menu_item
```

#3 - 2019-11-29 06:40 - Go MAEDA

Confirmed the issue is reproducible and the patch in [#32503#note-2](#) fixes it.

#4 - 2019-11-29 06:40 - Go MAEDA

- Related to Feature #31355: Bookmarks and recently used projects for the project jump box added

#5 - 2019-12-02 02:39 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Fixed

Committed the patch in [#32503#note-2](#) as a part of [#31355](#). Thank you for catching and fixing it before the release of 4.1.0.
