

Redmine - Defect #32728

File upload when editing EXISTING comments

2019-12-30 10:32 - Robert Röttger

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	4.0.4
Resolution:	Duplicate		
Description Why there is no file upload function anymore when editing EXISTING comments? Is this a bug? Would be useful to add file upload there. My use case: I use this plugin to directly paste screenshots. But it doesnt work on editing comments because of the limitation. https://github.com/thorin/redmine_image_clipboard_paste			
Related issues: Is duplicate of Redmine - Defect #33647: Paste images from the clipboard does... New			

History

- Category changed from UI to Issues

I think it is the design.

Attachments are not associated with a comment but an issue. So, there is no concept that attaching files to a new/existing comment. A comment never becomes a container for attachments.

#2 - 2020-01-06 09:03 - Robert Röttger

I dont need attachements assigned to a comment. I only need the UI to be able to add attachements. The can stay in the ticket container same as new comments work. But it is reasonable to be able have the same interface then.

#3 - 2020-06-23 00:26 - Go MAEDA

- Is duplicate of Defect #33647: Paste images from the clipboard does not work when editing existing issue notes added

#4 - 2020-06-23 00:26 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Duplicate

Closing as a duplicate of [#33647](#).
