

Redmine - Defect #32754

Fix missing arrow icon of collapse macro

2020-01-05 09:08 - Popoki Tom (@cat_in_136)

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:	4.1.1	Affected version:	4.1.0
Resolution:	Fixed		

Description

When `{{collapse}}` macro used in the wiki text, a small arrow icon should be displayed but actually is not displayed on redmine 4.1.0.

Steps to reproduce the issue

Just use `{{collapse}}` macro in the wiki text. For example,

```
{{collapse
foobar
}}
```

Arrow icon should be displayed. You can see right behavior here (because redmine.org does not use redmine 4.1.):

```
{{collapse
foobar
}}
```

Causes

This is obviously a degrade due to #31433. r18204 removes arrow icons from `.collapsible`.

Workaround

Add following CSS rules.

```
.wiki a.collapsible {padding-left: 12px; background: url(../images/arrow_down.png) no-repeat 0px 50%;}
.wiki a.collapsible.collapsed {background-image: url(../images/arrow_right.png);}
```

Note that: The icon path should be change to the absolute path if you add the snippet to your theme or the [view customize](#) rule.

```
.wiki a.collapsible {padding-left: 12px; background: url(/images/arrow_down.png) no-repeat 0px 50%;}
.wiki a.collapsible.collapsed {background-image: url(/images/arrow_right.png);}
```
