Description

After updating Rails to 5.2.4.1 (#32526), Redmine cannot be run with Ruby 2.2 because of the following change in Rails that uses `&.` operator which has been introduced in Ruby 2.3. https://github.com/rails/rails/commit/92ec9f270d696a17ba7604b3d02931f07c3e7c6a

We should update source:branches/4.0-stable/doc/INSTALL in order to correctly tell the supported Ruby versions.
