

Redmine - Defect #3281

MethodNotAllowed Error when active a registered account after project assignment

2009-05-01 08:47 - Minjie Zhu

Status:	Closed	Start date:	2009-05-01
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:	Accounts / authentication	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		

Description

Confirmed with Redmine Ver: [r2697](#)

- Do the Account Registration.
- Then the Admin receives the activation request mail and go to the account admin page.
- Select the registered account.
- Click the Projects tab.
- Assign the account to a project any one you like and **click the Change button** beside the role.
- Click the Active link, then the Browser goes **white-out**.

Log said

```
Processing ApplicationController#index (for xxx.xxx.xx.xxx at 2009-05-01 14:54:26) [POST]
Parameters: {"user"=>{"status"=>"1"}}
```

```
ActionController::MethodNotAllowed (Only get requests are allowed.):
```

If you don't do the project assignment, it's OK.

So I check the Active Link and before you do the project assignment, the URL is

```
http://xx.xx.xx.xx:xxxx/users/19/edit?user%5Bstatus%5D=1
```

but after you do that, it changed to

```
http://xx.xx.xx.xx:xxxx/users/19/edit/memberships?user%5Bstatus%5D=1
```

Then I check the HTML source of the link

```
<a href="/users/19/edit/memberships?user%5Bstatus%5D=1" class="icon icon-unlock" onclick=
"var f = document.createElement('form'); f.style.display = 'none'; this.parentNode.appendChild(f);
f.method = 'POST'; f.action = this.href;f.submit();return false;">
```

I think after project assignment, the link's URL which is set to the form action value will be changed to a page which only allows GET Method.

Thank you for reading.
