**Description**

The attached patch cleans up toggleMultiSelect function(attachment:toggle_multiple_select.gif).

- 0001. Unify the process to toggleMultiSelect written in `workflows/permissions, workflows/edit, and query_filter` respectively
- 0002. Fix `app/controllers/workflows_controller.rb` that should have changed along with #15988  
  (It works like attachment:toggle_role_selectbox.gif due to the problem)

I think it is another issue. It is not a code cleanup but a bug. I think it should be handled by another new issue. What do you think?
