Add system setting for default results display format of project query (#32818).

Patch by Takenori TAKAKI and Marius BALTEANU.

#2 - 2020-02-03 14:16 - Takenori TAKAKI

- File setting_project_list_display_type.png added

- File 32818.patch added

I made a patch that enable to set the default 'display type' of project list.
We can select either "Boar" or "List" on the "settings?Tab=project" as shown below.

- Target version set to Candidate for next major release

#4 - 2020-02-07 07:18 - Go MAEDA

- Target version changed from Candidate for next major release to 4.2.0

I think there are many users who prefer "List" style over "Board". This is a useful feature for those users.

The patch looks good to me. Setting the target version to 4.2.0.

Thanks Takenori TAKAKI for writing the patch.

I propose few changes in the attached patch in order to keep the existing logic, please let me know what do you think.

Thanks to Marius for reviewing the patch and suggesting improvements!
I think attached code is better, because the patch will be more DRY.

Hello, i cant apply this patch to my Redmine (4.1.0.stable). When i execute this command on home project directory i got this:

```
patch < 0001-Add-system-setting-for-default-results-display-forma.patch
can't find file to patch at input line 19
Perhaps you should have used the -p or --strip option?

Use patch -p1 < 0001-Add-system-setting-for-default-results-display-forma.patch to apply the patch. Anyway, if still doesn't work, please use forum to request help.
