Description			
Linting the CSS files using the rules proposed in #32888 generates the following violations:			
<pre>root@df2fd1389bf4:/work# node_modules/.bin/stylelint "public/stylesheets/**/*.css"</pre>			
<pre>public/stylesheets/application.css 561:1 [] Unexpected duplicate selector "div#issue-changesets div.changeset", first used at lin e 560 no-duplicate-selectors 682:77 [] Unexpected duplicate "pre" declaration-block-no-duplicate-properties 1084:1 [] Unexpected duplicate selector "table.progress", first used at line 1075 no-duplicate-selectors 1560:1 [] Unexpected duplicate selector ".sort-handle", first used at line 706 no-duplicate-selectors 1619:83 [] Unexpected duplicate "color" declaration-block-no-duplicate-properties public/stylesheets/responsive.css 264:18 [] Unexpected missing generic font family font-family-no-missing-generic-family-keyword 804:3 [] Unexpected duplicate selector "#issue_tree .issue > td:not(.checkbox), #relations .iss ue > td:not(.checkbox)", first used at line 787 no-duplicate-selectors 828:3 [] Unexpected duplicate selector "#issue_tree .issue > td.subject, #relations .issue > td.subject", first used at line 799 no-duplicate-selectors public/stylesheets/rtl.css 322:21 [] Unexpected duplicate "margin-right" declaration-block-no-duplicate-properties 377:14 [] Unexpected empty block block-no-empty</pre>			
The attached patches fix all of them with one exception 828:3 [] Unexpected duplicate selector "#issue_tree .issue > td.subject, #relations .issue > td.subject", first used at line 799 no-duplicate-selectors which should be fixed by #32889 .
