Description

Currently bookmark url creating with default protocol. If rails server setup with secure protocol bookmarks link still creating with http. Jquery raises error on that kind of links:

```
jquery-2.2.4-ui-1.11.0-ujs-5.2.3.js?1574665137:24 Mixed Content: The page at 'https://redmine/proj
ects/1' was loaded over HTTPS, but requested an insecure XMLHttpRequest endpoint 'http://redmine/p
rojects/1/bookmark'. This request has been blocked; the content must be served over HTTPS.
```

Redmine provides an option to specify protocol in administration panel. It could be used to generate url:
