Description

Currently, permission group names in the permission report are displayed in normal font-weight.

But I think they should be displayed in bold. Group names should be more prominent for legibility. In addition, showing in normal font-weight is inconsistent with the issues list with "group results by" is applied.

The attached patch changes the style of group names in the permission report.

I've proposed an additional patch in [#32961](#) to further improve the usability of the group names. :-)

#5 - 2020-02-07 00:57 - Go MAEDA

- Target version changed from Candidate for next major release to 4.2.0

Setting the target version to 4.2.0.

#6 - 2020-02-11 01:34 - Go MAEDA

- Target version changed from 4.2.0 to 4.1.1

Since the patch only changes CSS, so no problem to deliver in 4.1.1.
