

Redmine - Patch #32951

Issue Statuses sortable by name and position

2020-02-04 21:14 - Anas AI Salah

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:			
Description			
Allow admin to sort statuses by name and position in /issue_statuses			

History

#1 - 2020-02-04 21:15 - Anas AI Salah

Redmine version: 3.4.6.stable

#2 - 2020-02-05 00:40 - Go MAEDA

- File screenshot-with-patch-applied@2x.png added

Thank you for posting the patch. However, I would like to point out the following points:

- Showing position numbers is not very good looking and inconsistent with other pages such as trackers and roles
- The patch makes the behavior of existing sort handle unpredictable (at least for me)
- The patch cannot be applied cleanly to the current trunk

Issue statuses				 New status
Name ▾	Issue closed	translation missing: en.field_position		
Resolved		4	  Delete	
Rejected		2	  Delete	
New		1	  Delete	
Feedback		5	  Delete	
Closed		6	  Delete	
Assigned		3	  Delete	

#3 - 2020-02-05 00:49 - Anas AI Salah

Thanks for your feedback, Go MAEDA

- Showing position numbers is not very good looking and inconsistent with other pages such as trackers and roles

At our organization we have 100+ statuses for 20+ trackers, so it's important to sort statuses alphabetically when needed.

- The patch makes the behavior of existing sort handle unpredictable (at least for me)

It still sorts by the row position you drag it to, but yes, it's confusing. I wasn't able to come up with a good solution for that.

- The patch cannot be applied cleanly to the current trunk

Sorry! I should upgrade our Redmine to the latest version.
