Redmine - Defect #33088

Should User.notify_about?(issue) consider the issue being wathced by the user?

2020-03-03 12:11 - Takeshi SUGIYAMA

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Email notifications		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	4.1.0

Description

In app/models/user.rb line 790, notify_about?(object) is defined.
In app/models/issue.rb line 1037 notified_users method's comment explains

```
    # Author and assignee are always notified unless they have been
    # locked or don't want to be notified
```

My question is, should User.notify_about?(issue) checke the passed issue being wathced by the user or not?
If it should, I would like to know whether notify_about?(object) can take into account the issue being watched or not according to the user's notification prefernces?

Kind attention will be appreciated.
