Description

Hi,
can anybody solved problem, when you need to know, if email notification succesfully arrive?

I use Redmine 3.4.x and notification via exchange e-mail. We had 3-times error with succesful delivery. I fix it wit " or ' in config file and it seems ok now. But I would like to log/check tool or something.

Thank you for reply.

David

No, my fix with " or ' didn't work. A few days ago error comes again.

Has anybody idea, how does it fix for 100% sure, that notification is in mailbox? Plugin, tool, script?

Thank you for your reply.

David
