Description

I would like either a field on project or a field specific version but now there is no way of knowing which version id set as default on a project

- Subject changed from Default Version is not exposed via the API to Default version and assignee are not exposed via projects API
- Status changed from New to Confirmed

I think the default assignee should be in the API response as well.

That would be perfect for my use case.

Here is the patch, I think we can deliver this fix in a minor release. If not, please move it to version:"4.2.0".

Test results [here](#).

I agree. The two attributes should have been added in Redmine 3.2 or 3.4. And adding attributes does not break existing API clients if those are properly implemented.

#8 - 2020-03-17 09:59 - Go MAEDA
- Status changed from Confirmed to Closed
- Assignee set to Go MAEDA
- Resolution set to Fixed

Committed the patch. Thank you.
