Redmine - Defect #33113

Default version and assignee are not exposed via projects API

2020-03-09 12:41 - Rasmus Eneman

**Description**

I would like either a field on project or a field the specific version but now there is no way of knowing which version id set as default on a project.

**Related issues:**

- Related to Redmine - Feature #1828: Default target version for new issues
  - Closed
  - 2008-08-28
- Related to Redmine - Feature #482: Default assignee on each project
  - Closed

**Associated revisions**

**Revision 19581 - 2020-03-17 09:59 - Go MAEDA**

Show default assignee and default version in projects API (#33113).

Patch by Marius BALTEANU.

**Revision 19584 - 2020-03-19 09:55 - Go MAEDA**

Merged r19581 from trunk to 4.1-stable (#33113).

**Revision 19585 - 2020-03-19 09:56 - Go MAEDA**

Merged r19581 from trunk to 4.0-stable (#33113).

**History**

#1 - 2020-03-09 13:47 - Go MAEDA

- Subject changed from Default Version is not exposed via the API to Default version and assignee are not exposed via projects API
- Status changed from New to Confirmed

I think the default assignee should be in the API response as well.

#2 - 2020-03-09 13:51 - Go MAEDA

- Related to Feature #1828: Default target version for new issues added

#3 - 2020-03-09 13:52 - Go MAEDA

- Related to Feature #482: Default assignee on each project added

#4 - 2020-03-10 22:24 - Marius BĂLTEANU

The following JSON response is enough (keys default_version and default_assignee)?

```json
{
    "project": {
        "id": 1,
        "name": "eCookbook",
        "identifier": "ecookbook",
        "description": "Recipes management application",
        "homepage": "http://ecookbook.somenet.foo/",
        "status": 1,
        "is_public": true,
        "inherit_members": false,
        "default_version": {
            "id": 3,
```
That would be perfect for my use case

Marius BĂLTEANU wrote:

I think we can deliver this fix in a minor release. If not, please move it to 4.2.0.

Test results here.

I agree. The two attributes should have been added in Redmine 3.2 or 3.4. And adding attributes does not break existing API clients if those are properly implemented.

Committed the patch. Thank you.
