

Redmine - Patch #33117

Redirect to users_path instead of edit_user_path in order to avoid confusion

2020-03-10 11:01 - Go MAEDA

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Accounts / authentication	Estimated time:	0.00 hour
Target version:			
Description			
<p>Currently, a user is redirected to edit_user_path (/users/*/edit) after creating a user. However, I think it is better to be redirected to user_path (/users) for the following reasons:</p> <ul style="list-style-type: none">• Inconsistent. There are some exceptions but most forms in Admin page shows index page after an object is created• Confusing. Today I observed that an admin mistakenly rewrote the user that has just created. It is because they misunderstood that the form is /users/new, but it was actually /users/*/edit• I cannot find any use cases that showing edit_user_path is better than users_path <pre>diff --git a/app/controllers/users_controller.rb b/app/controllers/users_controller.rb index 2fb297874..d3e853b43 100644 --- a/app/controllers/users_controller.rb +++ b/app/controllers/users_controller.rb @@ -122,7 +122,7 @@ class UsersController < ApplicationController attrs = { :generate_password => @user.generate_password } redirect_to new_user_path(:user => attrs) else - redirect_to edit_user_path(@user) + redirect_to users_path end } format.api { render :action => 'show', :status => :created, :location => user_url(@user) }</pre>

History

#1 - 2020-03-10 11:16 - Go MAEDA

In early versions, the index page was displayed after creating a user, but the behavior was changed to display the edit form in [r2869](#).

#2 - 2020-03-10 22:11 - Marius BĂLTEANU

- Target version set to Candidate for next major release

#4 - 2020-04-28 08:36 - Go MAEDA

- Target version changed from Candidate for next major release to 4.2.0

Setting the target version to 4.2.0.

#5 - 2020-05-04 02:53 - Go MAEDA

- File 33117.patch added

Attaching a patch with an updated test.

#6 - 2020-05-07 04:51 - Go MAEDA

- Target version changed from 4.2.0 to Candidate for next major release

Removing from 4.2.0 because always redirecting to the first page of the list may not be appropriate.

The current patch always redirects to the first page of the users list even though a newly created user may be displayed on the other page. I felt the behavior is strange while testing.

#7 - 2020-06-15 11:04 - Go MAEDA

- *Target version deleted (Candidate for next major release)*
