Description			
Because of migration to Rails 6 and because ActiveSupport is now a very solid standard for file storage, it would be very nice to migrate current file management to ActiveSupport.			
It ought to be mentioned that Active Storage supports also all major cloud storages like S3.			

History

#1 - 2023-12-13 14:51 - Musa Avci

+1 especially for S3 integration.

#2 - 2024-03-29 06:38 - Dmitry Ukolov

It is useful for running Redmine in Kubernetes
