#### Description

Focus on issue 3 and 2 in the screenshots below. Issue subjects are not correctly displayed. This can be reproduced when the avatar server is not accessible and your browser is Internet Explorer.

#### BAD:

#### GOOD:

#### Steps to reproduce:

1. Set an invalid URL to avatar\_server\_url in configuration.yml in order to simulate that your browser cannot access to gravatar.com
2. Go to "Administration" > Settings > "Display" and enable "Use Gravatar user icons"
3. Access to Gantt with Internet Explorer. You will see broken issue subjects if the issue has an assignee
