<b>Target version:</b>			
<b>Resolution:</b>	Duplicate		
<b>Description</b> We really like a gauge that displays status of tickets per version.  Not all systems have versions, not all tickets are assigned a version.  If: there are multiple versions in a project show one extra bar (?last or first?) for all tickets without version  If: there are no versions in a project show roadmap like bar on project overview  A visual bar of project completion is a great project status indicator. Not seeing it when there is no version (per project or on a ticket) makes harder to know how much work in project is left.			
<b>Related issues:</b> Is duplicate of Redmine - Feature #1869: "Unscheduled" version on roadmap <b>Closed</b> <b>2008-09-08</b>			

History

<b>#1 - 2009-05-18 22:50 - Mischa The Evil</b>  - Status changed from New to Resolved  - Resolution set to Duplicate  Duplicate of issue <a href="#">#1869</a> . I think only the visual bar feature for projects/tickets(?) etc. is something new (check the available plugins to see if there's something which fits your needs already or open a new issue for the idea). Can you confirm? Resolved the issue for now...  Regards,  Mischa.
<b>#2 - 2009-11-23 00:08 - Mischa The Evil</b>  - Status changed from Resolved to Closed  No feedback. Closed as a duplicate of <a href="#">#1869</a> .
