Target version:	Candidate for next major release	Affected version:	4.1.0
Resolution:			
Description In Redmine 4.1, time entry has a new User field that allows entering another user's spent time (#3848). However, the User field is missing on the bulk edit screen for time entries. I think it is better to have the User field in bulk edit screen as well in order to reap the benefit of the new feature.
