Go Maeda, is there any reason for why we don't merge this to 4.0.8 as well?

This is because I simply didn't want to do manual work. r19702 cannot be auto-merged to 4.0-stable. But I will do it if you or someone think that the fix should be a part of 4.0.8.

- Status changed from Closed to Reopened

Attached the patch to back port to 4.0.8 as well.

Thank you for the patch but the test fails.

Failure:
