the reason for the issue is that total_estimated_hours is missing from queries_helper.rb

the issue can be fixed by changing lines 170 and 241:

(I already fixed it on my instance)

I'm not exactly sure if subversion supports something like pull requests in git, so i'm opening an issue instead

Go Maeda, is there any reason for why we don't merge this to 4.0.8 as well?

This is because I simply didn't want to do manual work. r19702 cannot be auto-merged to 4.0-stable. But I will do it if you or someone think that the fix should be a part of 4.0.8.

Thank you for the patch but the test fails.

Failure:
