

Redmine - Defect #33283

Thumbnail support for PDF attachments may not be detected

2020-04-09 12:34 - VVD VVD

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Attachments	Estimated time:	0.00 hour
Target version:	4.1.2	Affected version:	4.1.1
Resolution:	Fixed		

Description

In lib/redmine/thumbnail.rb:

```
begin
  `gs -version`
  @gs_available = $? .success?
rescue
  @gs_available = false
end
```

Can't detect ImageMagick PDF support.

But if I add full path to gs:

```
begin
  `/usr/local/bin/gs -version`
  @gs_available = $? .success?
rescue
  @gs_available = false
end
```

then it detects ImageMagick PDF suport.

Patch for 4.1.1 to fix it:

```

Associated revisions

Revision 19712 - 2020-04-20 16:15 - Go MAEDA

Fix that thumbnail support for PDF attachments may not be detected (#33283).

Patch by VVD VVD.

Revision 19713 - 2020-04-20 16:16 - Go MAEDA

Merged r19712 from trunk to 4.1-stable (#33283).

History

#1 - 2020-04-12 18:37 - Marius BALTEANU

- Target version set to Candidate for next major release

#2 - 2020-04-19 15:44 - VVD VVD

Why "Candidate for next major release"?

It's so small and obvious fix!

#3 - 2020-04-19 20:04 - Marius BALTEANU

- File 33283.patch added
- Target version changed from Candidate for next major release to 4.1.2

The patch looks good to me and the tests pass.

Why "Candidate for next major release"?
It's so small and obvious fix!

It was just an initial target version, but I don't see a real problem to deliver this fix in version:"4.1.2". I've created a patch file from the diff.

#4 - 2020-04-19 23:58 - VVD VVD

Thanks.

Just checked - for create attachment thumbnails of PDF files used convert. And gs binary isn't necessary.

#5 - 2020-04-20 15:14 - Go MAEDA

- Related to Feature #22481: Show thumbnails for PDF attachments added

#6 - 2020-04-20 16:17 - Go MAEDA

- Subject changed from Can't detect support of thumbnails for PDF attachments to Thumbnail support for PDF attachments may not be detected
- Status changed from New to Closed
- Assignee set to Go MAEDA
- Resolution set to Fixed

Committed the patch. Thank you.

#7 - 2020-04-20 17:34 - VVD VVD

Thanks!

#8 - 2020-06-21 21:25 - David Gessel

Thanks for this patch - just tested this patch on a FreeBSD 11.3 install where the ports version is currently redmine4-4.1.1_2 and the patch and configuration.yml modification resulted in pdf support finally being available. :-)

- ghostscript9-agpl-base-9.52_5
- ImageMagick7-nox11-7.0.10.6
- rubygem-mini_magick-4.10.1

Success. Thanks.
