

Redmine - Feature #33297

Sort git tags in descending order

2020-04-16 14:28 - Vasili Korol

Resolution:	
Description I think it would be a bit more convenient if the items of the "tags" dropdown on a Git repository page were sorted in a descending order (newest to oldest). At the moment, if there are many tags, one has to scroll down the list to find the newest ones, whereas in my experience they are more frequently used, and should therefore be shown at the top.	

History

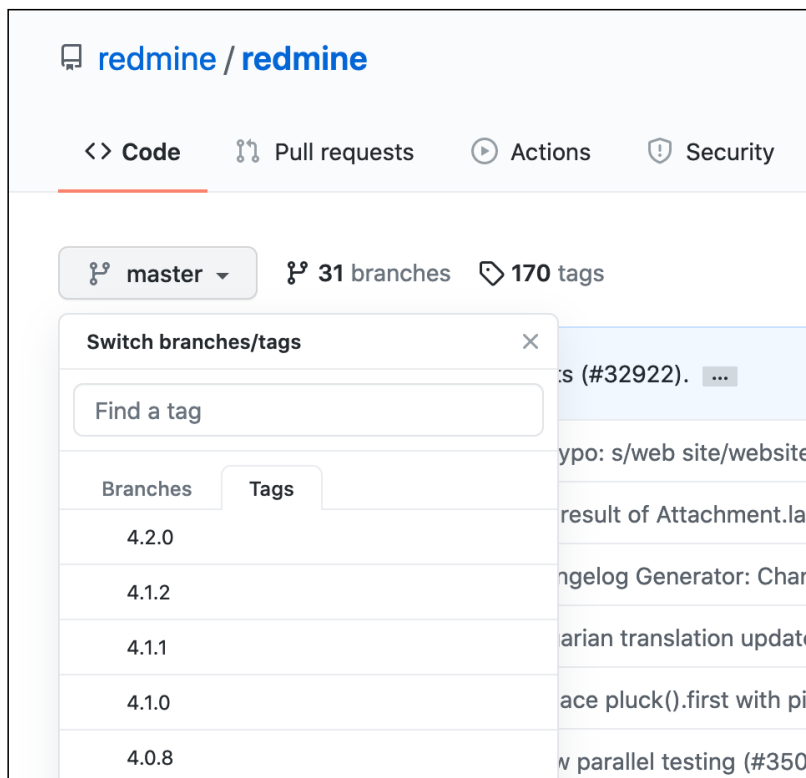

#1 - 2020-04-19 13:33 - Go MAEDA

- Category changed from UI to SCM

#2 - 2021-04-10 08:45 - Go MAEDA

- File github-tags.png added

GitHub sorts branches in ascending order and tags in descending order.
