<b>Description</b>			
<p>currently, there is no means to see updated_on and passwd_changed_on columns of users table. However, those timestamps are useful or necessary for admins or information security managers.</p> <p>I think an easy way to make the timestamps visible is to include them when exporting users to CSV. It is easy to implement because there is any impact on the user interface.</p>

- File 33347-v4.patch added

- Target version changed from Candidate for next major release to 4.2.0

I have slightly updated the patch as follows.

- Move the "Updated" column to after the "Created" column. This order is consistent with several REST API
- Change the translation for passwd\_changed\_on from "Last password change on" to "Password last changed"

Setting the target version to 4.2.0.
