Target version:	5.0.0	Affected version:	3.4.0
Resolution:	Fixed		
Description The following include line source:/tags/3.4.0/lib/redmine/helpers/gantt.rb#L141 should not be needed anymore as per r16221 . It will not cause any problems currently, but should for example the sort options include any of the included relations, this might lead to ambiguous names in the JOIN statement/double JOIN statements leading to an error in the sorting. This affects all versions since 3.4.0
