

Redmine - Defect #33381

Possible double includes in issue query in gantt helper

2020-04-30 17:27 - Felix Schäfer

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Gantt	Estimated time:	0.00 hour
Target version:	Candidate for next minor release	Affected version:	3.4.0
Resolution:			
Description			
<p>The following include line source:/tags/3.4.0/lib/redmine/helpers/gantt.rb#L141 should not be needed anymore as per r16221. It will not cause any problems currently, but should for example the sort options include any of the included relations, this might lead to ambiguous names in the JOIN statement/double JOIN statements leading to an error in the sorting.</p> <p>This affects all versions since 3.4.0</p>			

History
