Redmine - Defect #33381
Possible double includes in issue query in gantt helper
2020-04-30 17:27 - Felix Schäfer

Status: New
Priority: Normal
Assignee: 
Category: Gantt
Target version: Candidate for next minor release
Resolution: Candidate for next minor release

Start date: 
Due date: 
% Done: 0%
Estimated time: 0.00 hour
Affected version: 3.4.0

Description

The following include line source:/tags/3.4.0/lib/redmine/helpers/gantt.rb#L141 should not be needed anymore as per r16221. It will not cause any problems currently, but should for example the sort options include any of the included relations, this might lead to ambiguous names in the JOIN statement/double JOIN statements leading to an error in the sorting.

This affects all versions since 3.4.0
