Redmine - Patch #33424
Update Tribute to 5.1.3
2020-05-10 05:46 - Go MAEDA

Status: Closed
Priority: Normal
Assignee: Go MAEDA
Category: Third-party libraries
Target version: 4.2.0

Description
The attached patch updates Tribute, a JavaScript library used for inline issue auto-complete (#31989), from 3.7.3 to 5.1.3.

One of the most interesting features of the latest Tribute is multiple trigger characters added in Tribute 4.1.1. I think we can add several nice features to Redmine by making use of it, for example, auto-complete for [[RedmineTextFormattingTextile#Macros|wiki macros]] that can be invoked by typing "{{".
