<b>Category:</b>	Plugin API	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	4.2.0		
<b>Description</b> Extracted from <a href="#">#33339#note-20</a> by <a href="#">Alexander Meindl</a> with patch:  [...] But it should be a possibility for plugin developers to change css for an individual namespace to the plugin settings (without using deface or Javascript).  If a css class would be added with the plugin name, a plugin developer can change css for the required plugin.  I added a patch for this possible change. It would be very helpful, also for other situations for a Redmine plugin developer.
