Target version:			
Description			
Hi, I would like to submit Croatian translations for version 4.1.1, with keys and key ordering matching the EN language file. The current translations file is quite old, many items were untranslated or poorly translated, so it pretty much needed a major overhaul.

- File hr-translation-22382.patch added

[hr-translation-22382.patch](#) is an updated patch for [r22382](#).

Since the patch changes many existing Croatian strings, I would like Croatian speakers to review this patch.
