Please don't test Redmine on this site. This is the official site of Redmine. You can open issues such as bug reports or feature requests regarding Redmine.

You should use <http://demo.redmine.org/> if you want to test Redmine.

I will delete this issue after a while.

Since the subject and description were not written in English, I thought that someone created this issue as a test.

Please open a new issue in English because communication here is done in English. Before opening a new issue, it is recommended to read [Submissions](#).
