- Resolution set to Cant reproduce

This behavior is most-likely caused by the custom theme you're using. The description is correctly shown on hover with the default theme<sup>1</sup>. I'd suggest to report the error to the theme author(s)/maintainer(s) if it persists with the latest version of the theme.

<sup>1</sup> except that the styling of the element is not entirely correct, I'll open a new issue to cover that ([#33502](#)).
