

Redmine - Defect #33482

When I create a custom field the description disappear

2020-05-23 18:04 - Marcelo Pulcinella

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	Affected version: 4.1.1
Resolution: Cant reproduce	
Description I have created some custom fields and with the first one, appeared a detail when you cross on it with the cursor ?, now, when I pass over the field, it opens a white box without words. see the attached, you will be able to see the white text box empty. without explanation of the field selected. Please advice.

- Status changed from New to Closed

- Resolution set to Cant reproduce

This behavior is most-likely caused by the custom theme you're using. The description is correctly shown on hover with the default theme¹. I'd suggest to report the error to the theme author(s)/maintainer(s) if it persists with the latest version of the theme.

¹ except that the styling of the element is not entirely correct, I'll open a new issue to cover that ([#33502](#)).
