

Redmine - Defect #3353

Wiki won't show [...]

2009-05-13 13:36 - Felix Schäfer

<b>Status:</b>	Closed	<b>Start date:</b>	2009-05-13
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Wiki	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	
<b>Resolution:</b>	Cant reproduce		

**Description**

I tried getting [...] (square bracket, three dots, square bracket) on a wiki page (on a line on its own), but it yields:

```
< pre >< code >/&gt;< /code >< /pre >
```

(just pretend there are no spaces in the tags...)

I don't quite know what information to provide here, expecially because I don't know where the problem lies (could be redmine, textile, rails, ...), but here the versions I think are useful. Let me know if you need anything else.

Redmine: [r2460](#)  
Rails: Rails 2.1.2  
Ruby: ruby 1.8.6 (2009-03-31 patchlevel 368) [x86\_64-linux]

History

#1 - 2009-05-13 18:13 - Jean-Philippe Lang

- File *brackets.png* added

I can't reproduce with current trunk. Here is what I get:

#2 - 2009-05-13 22:35 - Felix Schäfer

[...]  
W

Well, it seems the bug only manifests when not followed by 2 newlines or something... Anyway, I put [...]nW at the beginning of this comment, and at least the preview reflects the bug. I also updated our redmine to the latest svn version, and the bug still is there.

#3 - 2009-05-13 22:37 - Felix Schäfer

While I'm at it: it really seems to happen somewhere while taking the code stored in the db and converting it to html, as it still is there as [...] when editing or quoting it.

#4 - 2010-02-11 20:36 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Cant reproduce

Just tried to preview your comment and it looks fine. Just like your comment above.

#5 - 2010-02-11 20:40 - Felix Schäfer

I can't reproduce it anymore either, so I'd suppose it has been corrected somehow. Thanks for checking again though :-)
