Description

The current tooltip shows only the ticket number, but this is not enough information for users to imagine what the issue is about.

I think it can be improved by showing the issue subject in the tooltip.

It may be better to change the method name: 'retrieve_previous_and_next_issue_ids'.
e.g. 'retrieve_previous_and_next_issue'

Thanx!
LGTM!

Thank you for posting the patch. I think we need to carefully consider whether the feature is worth adding two additional queries to implement.

```
  Issue Load (0.1ms)  SELECT  "issues".* FROM "issues" WHERE "issues"."id" = ? LIMIT ?  [["id", 16], ["LIMIT",
  1]]
```

```
  Issue Load (0.1ms)  SELECT  "issues".* FROM "issues" WHERE "issues"."id" = ? LIMIT ?  [["id", 14], ["LIMIT",
1]]
```
