Description

First I would like to say this is a great project with great people working on it. Good job!

Here is the proposal:

When displaying the issues for sub projects, the project name would be good to be as part of the subject. Mysubproject
- sub project subject.
on the current version is under tracker which is ok but not easy to read.
the export does not have this functionality yet and its great when you do an excel export and be able to recognize which
subproject the issue belongs to.

History

#1 - 2007-04-30 16:19 - Jean-Philippe Lang

Committed in rev 496.
For csv export, it makes more sense to add a project column IMHO,
so I added one :-)

#2 - 2007-04-30 17:07 - Mar T

that's even better!
good job.
is the web isee display project name under the subject or
tracker?

#3 - 2007-04-30 17:20 - Mar T

excellent!

#4 - 2007-04-30 17:20 - Jean-Philippe Lang

subject :-)

#5 - 2007-04-30 17:30 - Mar T

ok i just did the svn update and the display of the issues
prints stuff like this:
<<<<<<< .mine =======

#6 - 2007-04-30 17:42 - Mar T

ignore the last comment.
its fixed.. apparently some error with the svn didn't get
the file correctly! so i re updated and got fixed.
